

Data Flow Diagram & User Stories

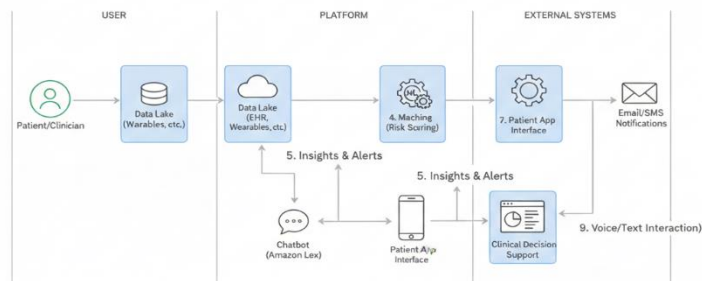

Date	26 December 2025
Team ID	LTVIP2026TMIDS80392
Project Name	Heart Disease Analysis
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

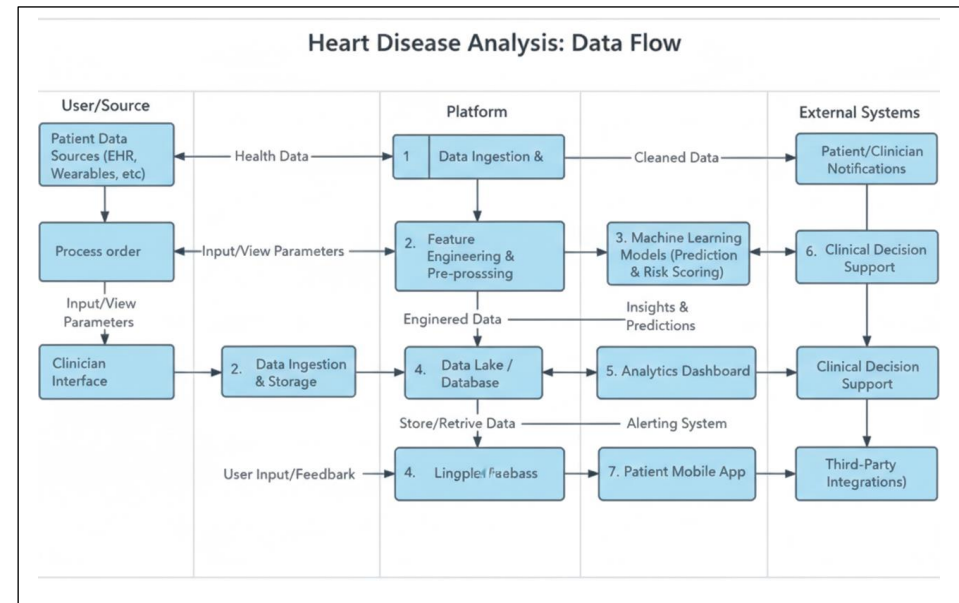

Example: (Simplified)

Heart Disease Analysis: Data Flow

1. Patient/Clinician inputs health data (EHR, wearables).
2. Data is store-sing & Feature Engt).
3. Pre-processsing & Feature End.
4. Raw is data extracts forom data file.
5. Extracted Tilka extractts text frobatue engineering.
6. Clinicians access ML modlols on Inghls and web dashboard.
11. Insights are communicate to users and external systems.

Level 0

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
Customer (Mobile user)	Registration	USN-2	As a user, I will receive confirmation email once I have registered for the application.	I can receive confirmation email & click confirm	High	Sprint-1
Customer (Mobile user)	Registration	USN-3	As a user, I can register for the application through Facebook.	I can register & access dashboard using Facebook login	Low	Sprint-2
Customer (Mobile user)	Registration	USN-4	As a user, I can register for the application through Gmail.	I can register & access dashboard using Gmail login	Medium	Sprint-1
Customer (Mobile user)	Login	USN-5	As a user, I can log into the application by entering email & password.	I can successfully login and view dashboard	High	Sprint-1
Customer (Mobile user)	Dashboard	USN-6	As a user, I can view heart disease prediction results on dashboard.	Prediction result is displayed clearly	High	Sprint-2
Customer (Mobile user)	Dashboard	USN-7	As a user, I can upload health data for analysis.	Data upload is successful and validated	High	Sprint-2
Customer (Web user)	Dashboard	USN-8	As a web user, I can view graphs and visualization of heart disease analysis.	Charts and graphs load properly	High	Sprint-2

Customer (Web user)	Reports	USN-9	As a web user, I can download analysis reports.	Report downloads successfully in PDF/CSV	Medium	Sprint-3
Customer Care Executive	Support	USN-10	As a support executive, I can assist users with login and data upload issues.	User issues can be tracked and resolved	Medium	Sprint-3
Customer Care Executive	Monitoring	USN-11	As a support executive, I can view user activity logs.	User activity details are visible	Low	Sprint-3
Administrator	Model Management	USN-12	As an admin, I can manage and update the prediction model.	Model updates successfully without errors	High	Sprint-4
Administrator	System Monitoring	USN-13	As an admin, I can view system performance metrics.	Accuracy and model metrics are visible	High	Sprint-4
Administrator	User Management	USN-14	As an admin, I can manage user accounts and permissions.	Admin can activate/deactivate users	Medium	Sprint-4
